#### SCHOOL COUNSELING EVALUATION RUBRIC (rev. 4/2011)

This evaluation consists of three parts: Professional Identity and Behavior, School Counseling Program Management Skills, and Counseling Skills. The practicum student must achieve an overall rating of a Level 3 to pass practicum, and the internship student must achieve an overall rating of Level 4 / Level 5 to pass internship. *Please note that students are responsible for obtaining and tracking their attainment of each behavior or experience listed in the rubric.* 

This rubric has been organized using BLOOM'S TAXONOMY (Revised, Anderson & Krathwohl, 2001), which outlines the shifts in thinking that learners experience as they progress from "novice" thinking to more "expert" thinking.

Lowest: Remember  $\rightarrow$  Understand  $\rightarrow$  Apply  $\rightarrow$  Analyze  $\rightarrow$  Evaluate  $\rightarrow$  Create Highest

For the purposes of this rubric, LEVEL 1 represents student behaviors that indicate that the student does not have access to, or chooses not to access, the information learned about the profession. He/she is not *able to remember* or chooses not to *remember* professionally relevant priorities.

LEVEL 2 represents student behaviors that indicate the student does *remember and understand* professionally relevant priorities, but *struggles to apply* that knowledge and understanding.

LEVEL 3 indicates that the student is able to *apply* the *knowledge* and demonstrate *understanding* of professionally relevant priorities. This level is expected of successful practicum students.

LEVEL 4 represents student behaviors that indicates both *application* and *analysis* of professional situations, but is inconsistent in or unable to *evaluate* the resulting insights in order to *create* highly appropriate responses. This level is expected of successful internship students, and represents good performance as an entry level professional school counselor.

LEVEL 5 indicates that the student is consistently using "expert" thinking skills to *evaluate* professional situations and *create* professionally meaningful responses (i.e., behaviors and programs) that serve to enhance the school counseling program in particular and the whole school in general. This level is advanced and would be expected from practicing professionals with experience. It is presented here to describe *exemplary* intern performance and to inspire further professional achievement.

If you have not observed a behavior or it is not applicable to your work with the student, please insert "NA" (not applicable) or "NO" (not observed). Comments and suggestions for improvement are vital for the student's growth. Please feel free to attach additional pages as needed.
